

# IS15 Plus Photo Scanner

The IS15 Plus is a small, feather light standalone scanner that can operate without a PC. Scan photos and save the images with ease to a USB flash drive or a memory card (SD/SDHC) by simply plugging your choice of storage into the device. You will be delighted to find the scanned images appropriately cropped, deskewed and ready for use straight from the IS15 Plus. Big on specs The IS15 Plus has a resolution of 300dpi with an automatic document feeding mechanism. It can handle photos, business cards, receipts, or small memos and notes up to 5 x 7 in size. It's fast, too, with a 5 x 7 photo scanned in color mode at 300dpi completed in less than 10 seconds

The IS15 Photo Scanner  
circulates for  
**ONE WEEK**

This device is  
recommend for use  
by adults 18 and up.
