# Timeless Tales

## Write It | Your Own Timeless Tale

Reach out to some of your relatives to find out some of their favorite family stories or stories that were important to the family. Talk to family members of all ages to get a range of topics.

## Wellness | Bubble Magic

Imagine the wonderment of medieval people if they had seen soap bubbles being blown and manipulated. Surely, it would have looked like magic to them. Even today, bubbles have a magical fascination for all ages. It can be relaxing to blow bubbles.

### What you need:

- dish soap
- water
- sugar
- containers
- wands (you can use a pipe cleaner or a twisted metal hanger)
- straws
- paper
- food coloring (optional)
- disposable bowls or plastic containers

### What you do:

Mix a half cup of dish detergent with a half cup of water. Mix in two teaspoons of sugar and your bubble solution is ready to use!

You can also do bubble painting. Mix water, detergent and a little food coloring into a plastic container. Using a straw, blow into the mixture until bubbles build up on the surface above the rim of the container. Lay paper on the bubbles and lift carefully. Bubble images will be on the paper.

## Design It | Stained Glass

What you need:

- tempera paint
- dish detergent
- brushes
- photos of medieval glass windows

What you do:

Use one of the attached samples of stained glass or one of your own. Tape the example to the outside of a window in your home facing inward. Use a washable marker to trace the design; you can also paint it. Mix your paint with a little dish detergent. It will make it easier to remove the paint at a later time. Then paint your stained glass inside the lines.
